Quantum English

Welcome to Avalon: 'The speaking school'

Why choose Avalon? For 20 years the answer has been 'to speak English'. Our unique Quantum method means students have a greater opportunity to speak than more conventional teaching methods. Natural spoken English informs everything that we do from level-testing, teaching and monitoring student progress.

When students arrive at Avalon their level is assessed on what they can say and how accurately and naturally they say it. Pronunciation, stress, accent and rhythm have as great an impact on a student's fluency in English than simply new vocabulary and grammatical structures.

“We don't just want you to know more, but to do more”

Alex Tustain
Academic Manager

Quantum course components

- Level test based on Spoken English
- Integrated Pronunciation course
- Focus on fluency
- Dynamic and communicative classes
- Specially trained CELTA/DELTA qualified teachers
- Listening checks after every unit
- Speaking checks after every 2 units
- Additional Grammar exercises
- Additional online Academy resources

Quantum Books

Quantum books reflect what students and teachers do in the classroom. They allow students to record pronunciation, new vocabulary and grammar. The questions allow students to practise their speaking and listening and teachers can correct and help their students become more fluent from their answers.

New Work and Revision

Quantum classes are divided into two 50 minute sessions. The New Work class is where the teacher prepares students to practise target vocabulary and grammar for the first time. The Revision class is an opportunity to revise and expand upon target language with greater emphasis on fluency and communicative practice.

Progress Checks

Quantum students are encouraged to think of their English in terms of their practical speaking and listening skills. We have listening progress checks after every unit and speaking checks after every two units. Remember, you can combine your Quantum speaking classes with skills and exam classes.

Exams

Avalon provides exam preparation courses throughout the year. Our experienced teachers have a special interest in academic English and support each student's individual needs throughout the course. Regular mock exams and progress reports are given to ensure a successful result.

The exam courses run continuously so you can start on any Monday and study for as many weeks as you need. We generally recommend approximately 14 weeks to prepare for an exam but it depends on your level of English which we assess before you join the course. For students who are not yet at the required level we have Academic Studies classes to help them proceed onto the exam preparation course.

FCE - What is Cambridge First Certificate?

FCE is an exam for people who need to prove they can use everyday written and spoken English at an upper-intermediate, CEFR B2 level for work or study purposes.

The FCE qualification:

- is officially recognised around the world by employers, universities and government departments
- gives you a pathway to higher qualifications
- gives you the confidence to use English in real situations

CAE - Why take Cambridge Advanced English?

CAE gives an in-depth assessment of your ability and fluency at level CEFR C1/C2 and shows you are well-placed in dealing with complicated academic and professional tasks in English.

The course empowers you to:

- communicate effectively at managerial and professional level
- participate with confidence in workplace meetings or academic tutorials and seminars
- carry out complex and challenging research

TOEIC

An internationally recognised qualification that demonstrates a student's proficiency in English, particularly used as an assessment of English in the workplace. This is the most widely used language test for professional English with more than 6 million test takers every year.

IELTS

Avalon offers preparation classes in Academic IELTS, which is the most popular exam for students intending to study at graduate or postgraduate level or for professional registration purposes. It tests the student's ability both to understand and to use complex academic language and is now used globally for entrance onto higher education courses.

Avalon is an approved test centre for the BULATS and TOEIC exams.

Cassandra Moss

Cassie came to Avalon in 2009 as a newly qualified teacher because she wanted to work at a school that focused on spoken communication. The friendly and sociable atmosphere here enables her lessons to be centered around students' lives and their daily language needs. Working in such an interactive, communicative way, Cassie has developed a diverse skill-set for teaching pronunciation and grammar so that the students' experience of language learning is as comprehensive and enjoyable as it can be.

Our Teachers

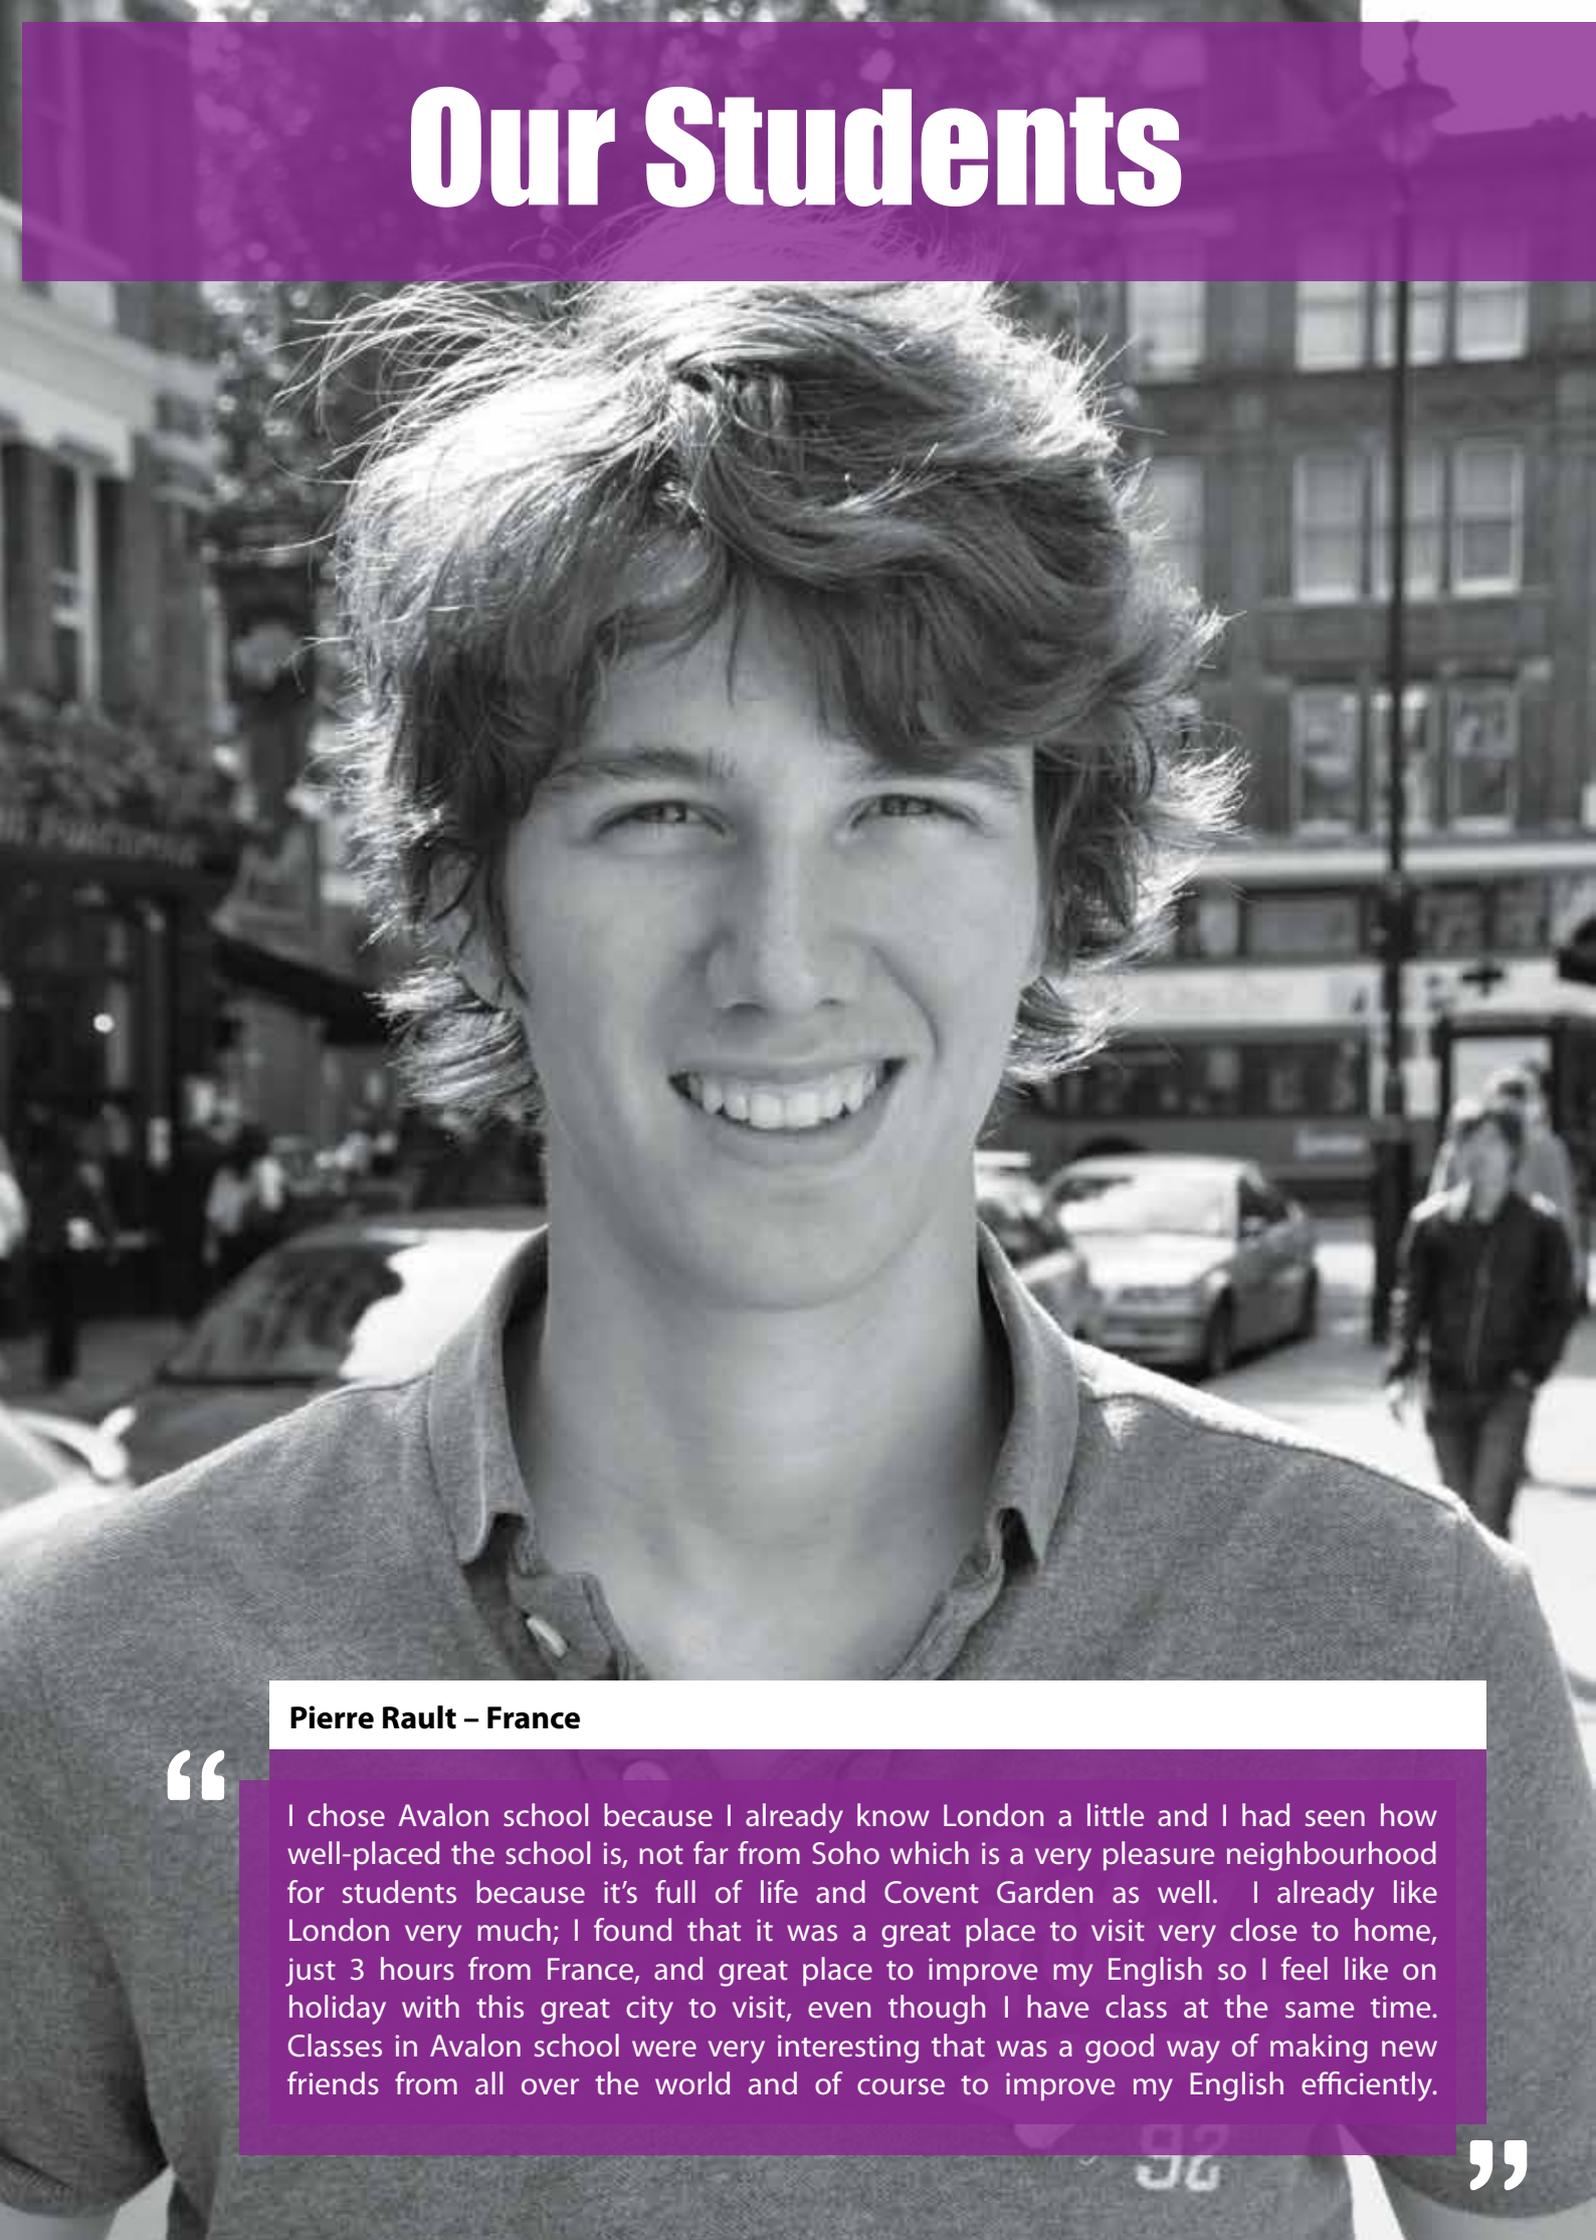

Phil Marshal

“

I have worked at Avalon for over two years and from my first week here as a teacher it was clear that the students gained a real advantage from the school's unique teaching method. The focus on speaking and error correction encourages students to build confidence quickly. I am very interested in the role of pronunciation training as a key part of a general English course. The Quantum Method emphasises an in-depth yet working knowledge of English speech patterns which, I believe, allows students to use their English more immediately and with more confidence everyday. I always encourage students to use their English as much as possible outside of the classroom and London offers an amazing and endlessly fascinating setting in which to explore, discover, practise and improve.

”

Our Students

Pierre Rault – France

“ I chose Avalon school because I already know London a little and I had seen how well-placed the school is, not far from Soho which is a very pleasure neighbourhood for students because it's full of life and Covent Garden as well. I already like London very much; I found that it was a great place to visit very close to home, just 3 hours from France, and great place to improve my English so I feel like on holiday with this great city to visit, even though I have class at the same time. Classes in Avalon school were very interesting that was a good way of making new friends from all over the world and of course to improve my English efficiently. ”

Stefania Mari – Italy

“

When I came to London I was worried about my English as I could not speak a word! Then, I joined Avalon and I stopped being worried as every day my English was improving very quickly. The teachers are very helpful and make every lesson not only a knowledgeable but also enjoyable. They are very lively people with a great sense of humour and enthusiasm. Avalon is more than a school. It is also a perfect place to make many friends from all over the world and share with them a unique life experience.

”

Juan Esteban Garcia Barrera - Colombia

“

London is an awesome city where you always have fun things to do and you can meet people from all around the world. The classes at Avalon are both effective and enjoyable and the social activities organised by the school are just great from museums and tourist places to parties and trips. So you get a mixture of learning in an effective way and having fun in your stay in London. I also like the facilities that Avalon has like the chill zone where you can relax or study and talk in English with people from all around the world.

”

You Jung Lee – Korea

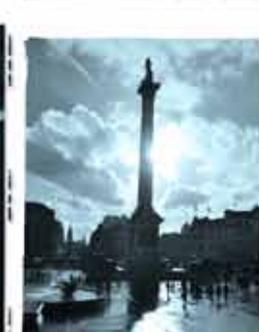

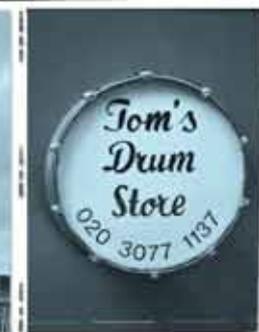

“

I think that United Kingdom is an attractive country. Especially London is the most interesting city. If you go through central London, you can see various nationalities' people; also, you can hear lots of different languages. I feel like I'm in the whole of the world. In other words, you can have diverse experiences. If you go to Avalon School, your options could be large (or bigger) of course. You can study English with the best teachers and friendly staff. They always try to think how to support students. For example, they usually plan activities, parties and trips for students. In addition you can always enjoy lessons and free time with foreigner friends. I've been here about two months and I've improved my English. I hope to study more things and experience many things. I love London & I love Avalon School.

”

I LOVE LONDON BECAUSE

“Coming to London was one of the best decisions I made in my life. When you are here you realise how people from all parts of the world can be so different in some ways but so similar in others.”

Karine Da Silva Lammel – Brazil

“London is a great place to be. I would like you to know that if you come abroad with a little courage, the whole world is waiting for you.”

Takahiro Kamakita – Japan

“London is one of the few places in the world where what is new doesn’t replace what is old, that makes London an architectonic and cultural treasure.”

Francisco Jose Da Silva Neto – Brazil

“My greatest passion is meeting and talking to people from different cultures. London is the right city where you can do it. Every day you can have new experiences and meet new people.”

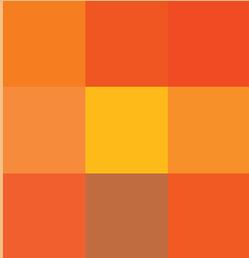

Gianluigi La Salvia – Italy

“As far as I am concerned, living in London is more than just learning English. It is more like widening your own thoughts and your view of different people from different countries.”

Hyo Jin Bang – Korea

“In London, you get an invaluable experience for your life, as simple as to say “hello” to other people that you maybe have never imagined in your life, your best friend in this new world, could be from a culture completely different as yours.”

Nohora Patricia Sepulveda Jaimes - Colombia

FAQ Frequently Asked Questions

Are all teachers native English speakers?

Yes, all Avalon teachers are native English speakers. They are from the UK and occasionally we employ teachers from Ireland. It is beneficial for students to hear a variety of accents.

How many students are there in a class?

The maximum is 12 students in a speaking class and 15 in general skills and exam preparation classes such as IELTS, FCE & CAE. There are a maximum of 15 students in a Business English class.

How many lessons can I study?

You can study for as many lessons as you choose, between 5 and 25 a week. If you require a General Student Visa you must study a minimum of 15 hours per week, Monday to Friday, before 6pm.

Why are Afternoon classes cheaper than Anytime?

Anytime students have more flexibility to change their classes and are also entitled to more holiday, up to 6 weeks depending on the length of the course.

But remember, England has 8 public holidays a year, and no students lose any tuition time as this is given as extra holiday.

What will happen on my first day?

Our reception staff will provide information about the school. You will have a short speaking test with a Senior Teacher and you may be given a written level test depending on your course. You will be given a timetable with your classroom numbers and can start classes straight away.

Do I need a course book?

You will need to buy the course books. For speaking classes, you can buy a Quantum book from reception. For other classes your teacher will show you which book to buy.

Our school is located near several large book stores. A book costs between £12 and £25 depending on your course

Can I change my classes?

Yes, we have a selection of classes at each hour and you may switch from speaking classes to Academic Skills, Cambridge Exams, IELTS and Business English, depending on your level.

Will I get a certificate?

Yes, all students who successfully complete their course receive a report and a certificate at the end of their studies which shows their level and duration of the course. A separate progress letter showing attendance is also available to students.

Students who take the online lessons can receive a certificate, but as this is a new course it is not yet accredited by the British Council.

Can you arrange my accommodation?

We can arrange a homestay (staying with a UK family in their home), a room at a Student Residence or, for long-stay students, a room in a shared apartment. All accommodation must be pre-paid and cancellation fees apply. Avalon has an Accommodation Officer who will arrange your booking and keep in touch with you before and during your stay.
